Save these helpful hints for your sale

- Will need a large amount of small bills on Friday. People are just starting the trip and will have \$100's & \$50's for small purchases.
- Be sure you have enough boxes, paper sacks & plastic bags for shoppers to carry away their treasures. Have lots of shredded paper, newspaper, bubble wrap etc. to pack fragile items. They really do appreciate it.
- Don't lose a sale for lack of a tape measure. Guests will know what size they need to fit in the vehicle or house. (Some larger pieces can be measured beforehand and marked on the item)
- Tarps are a good idea for outdoor vendors, in case of a short shower or windy conditions. Extra chairs/benches will keep shoppers longer if there is a rest area.
